

Cheminformatics Tools, Compound Databases and Data Management Platforms

9th October 2023

online

Workshop of the COST Action CA21111 One Health drugs against parasitic vector borne diseases in Europe and beyond OneHealthdrugs

The event is open to PhD, young innovators and senior scientists from both academia and pharma.

Description:

High quality data on compound properties and activities form the backbone of the daily work for many members of the COST Action OneHealthdrugs. Cheminformatics tools, compound repositories and data management platforms play an essential role in providing access to vital compound information and facilitating the analysis of compound properties for modelling of drug targets and developing compounds as potential drug candidates against parasitic diseases. The aim of this workshop is to introduce knowledge in using various cheminformatics tools, accessing and navigating compound databases, and efficiently managing chemical data through data management platforms.

You are invited to **submit your abstract by the 04/09/2023** and send it to ulrike.wittig@h-its.org using the provided template. The workshop will consist of presentations from invited speakers and selected abstracts.

The event registration requires two steps:

- 1) create an e-COST account in the www.cost.eu and
- 2) register [here](#) by the **06/10/2023**
