

We are excited to invite you to join us OneHealthDrugs Marathon (non-stop presentations) in celebration of One Health Day!

The **OneHealthDrugs Marathon** will take place with online presentations and discussions through **25-28th November 2024**.

One Health is an approach that recognizes the health of people, animals, and ecosystems are all linked. By fostering collaboration across various sectors, we can tackle health issues more effectively, from zoonotic diseases to environmental challenges. This global initiative emphasizes the interconnectedness of human, animal, and environmental health.

Through the EU COST-Action *OneHealthdrugs*, (CA21111) we are committed to innovate drug development, ensuring precise actions, for the early assessment of the drug environmental impact for optimal drug profiles.

- all network participants are invited to share their research to increase our knowledge of the research landscape existing in the network;
- new applicants network participants will be attracted;
- positive feeling of an open collaborative atmosphere;
- new concepts and innovative technologies can be integrated in perspective into all research programs through collaborations, training schools and STSM-COST Action fellowships.

Join us for a 4-day marathon of insightful discussions, expert opinions, and opportunities to connect with others passionate about health and sustainability. Together, we can make a difference in our communities and beyond.
