Invitation to the OneHealthdrugs Marathon 2025: Fostering One Health Collaboration

We are excited to invite you to join us for the **OneHealthdrugs Marathon**, a series of non-stop online presentations and discussions taking place from **December 2-5, 2025**.

The One Health approach recognizes the fundamental interconnectedness of human, animal, and ecosystem health. By fostering collaboration across diverse sectors, we can more effectively address global health challenges, ranging from zoonotic diseases to critical environmental issues. This global initiative underscores the synergy required to achieve optimal health outcomes for all.

Through the **EU COST Action OneHealthdrugs (CA21111)**, we are committed to revolutionizing drug development. Our focus is on innovating drug discovery to ensure precise actions and the early assessment of environmental impact, ultimately leading to optimal drug profiles that align with the One Health paradigm.

The OneHealthdrugs Marathon offers a unique platform to:

Share Research: All network participants are invited to present their latest research, enriching our collective understanding of the diverse research landscape within the network.

Attract New Talent: Provide an engaging environment to attract and welcome new applicants to our growing network.

Building Community: Foster a positive atmosphere of open collaboration and knowledge exchange among peers.

Integrate Innovation: Facilitate the integration of new concepts and innovative technologies into ongoing research programs through potential collaborations, training schools, and STSM-COST Action fellowships.

Join us for this inspiring 4-day marathon of insightful presentations, expert opinions, and invaluable opportunities to connect with fellow researchers and innovators who are passionate about health and sustainability. Together, we can drive significant advancements and make a tangible difference in our communities and beyond.

We look forward to your participation!

The deadline for registration and abstract submission is **26 November 2025**.
